Kelly Richards makes \$217 a day working online from home on her computer.

Have You Ever Thought About Working Online?

Kelly Richards of Piscataway, NJ never thought she would have a job working at home until one day she filled out a simple form online. Before she knew it, she discovered her secret to beating the recession, and being able to provide for her family while at home with her two children.

I read Kelly's blog last month and decided to feature her story in our local job report. In our phone interview she she told me her amazing story. "I actually make about \$5,000-\$7,000 a month using the internet. It is enough to

comfortably replace my old jobs income, especially considering I only work about 10-15 hours a week from home.

Working online has been a financial windfall for Kelly, who struggled for months to find a decent job during the struggling economy. "I lost my job shortly after the recession hit, I needed reliable income, I was not interested in the "get rich quick" scams you see all over the internet. Those are all pyramid scams or stuff where you have to sell to your friends and family. I just needed a legitimate way to earn a living for me and my family. The best part of working online is that I am always home with the kids, I save a lot of money."

I asked her about how she started her remarkable journey. "It was pretty easy, I filled out a short form and applied for a work at home kit. There is a small processing fee, its not really free but was just under \$3. I got the Kit and within four weeks I was making over \$5,000 a month. It's really simple, I am not a computer whiz, but I can use the internet. I post links that are given to me, I don't even have to sell anything and nobody has to buy anything. They are constantly recruiting people to post links, you should try it."

Working online has changed peoples lives overnight. These great companies have been helping people to work from home and give them new jobs. There are plenty of scams on the internet claiming you can make \$50,000 a month, but that is exactly what they are scams. From my conversation with Kelly, "I am making a good salary from home, which is amazing, under a year ago I was jobless in a horrible economy. I thank god every day that I filled out that form."

Quickly, Kelly Richards was able to use the simple [Home Income Wealth System](#) kit to

@Thomas, I'm using it now and it's working pretty well actually! I paid a dollar for processing, got it in a few days, signed up for my account and have been cranking along ever since. My first week I made a whopping \$288 and the second week I doubled that then it kinda snowballed to \$500 a day! I'm gonna grow this puppy as big as I can. Here's a screen shot of my stats, my wife is in shock.

Is this for real? I tried one thing and it didn't pan out. I made about \$500 a month but that was 2 years ago. I'm going to give this a shot.

Just a quick notice about this thing. It does work but you have to be able to use a computer at least somewhat. If you can use email, etc. then you'll be fine.

I just got my first check for \$2800.00! How cool is that it took about 2 weeks for me to get the first check.

Hey Dan, the answer is No. Any computer you have will work, I currently use this system on an old laptop and it works great. You just need the kit that the author named in the article.

I'd just like to add my story; I think others would like to hear it. I too was always leery about work at home offers because they always seemed to be scams. But after the recession hit, I was a little frightened. I wanted to have a backup plan just in case. So, I took your advice and got my free kit. It worked like a charm - I was earning money right away! I eventually did get laid off, just as I had feared, but since I had been using the online kit, I had money to fall back on. Now I'm doing better than I had at my job!
